To Whom it may concern in regards to Dustin Warncke, Warncke Enterprises.

Please consider this letter of recommendation.

First, Dustin's logo " yours to count on " is right on time.

Owner of Palmetto Guide Service I have been working as a professional outfitter in the outdoor industry for over 30 years.

With today's technology my web site drives business more than any other advertising avenue.

Owning and maintaining a web site is expensive and time consuming. I have invested untold hours and dollars in my website. I strive to keep my website current and professional.

I struggled for many years with web maintenance companies. Mostly, not happy with the expense and quality of work. Mistakes and excuses was the norm.

I met Dustin by chance while working with Texas Fish and Game Magazine. Soon after I asked Dustin about maintaining my website. Dustin has truly been my savior. Now, after several years of working with Dustin my website is sailing smoothly. Dustin has been far above and beyond my expectations. He has a common sense approach with professionalism, respect, dignity and time management. After tackling several major issues with my website you will never hear "can't do that" from Dustin.

I am now looking to the future and Dustin building me a completly new web site.

As a long time outfitter, fishing, waterfowl guide, tournament fisherman and business owner,I would proudly and highly recommend Dustin Warncke for website services.

When Dustin Warncke says"yours to count on" you can depend on it.

Sincerely,

David S. Cox
Owner/Palmetto Guide Service
